Dear Sirs

**Patents Act 1977: Search Report under Section 17(5)**

I enclose two copies of my search report and a copy of the citations.

**Examination opinion**

I also enclose two copies of an examination opinion which indicates certain major points that will be raised if you decide to request substantive examination of your application. If, having considered the search report and the examination opinion, you decide to proceed with this application we ask you to save time by responding to these major points with amendments (or observations) before or when you request substantive examination. If you do not address these points we will re-issue the examination opinion as an examination report for prompt attention, and defer further examination.

**Other search results**

If you have applied to another patent office for a patent for this invention you will be receiving from them the results of their search. If you decide to proceed with the present application you are asked to provide me with a copy of any such official search report; or to email identifying details of the cited documents (including any category assigned in the report) to the email address above.

*Cut-off date* This request applies to search reports that you have received before the date when you send a response to our first examination report under section 18(3) or section 18(4); if you make no response to an initial section 18(4) report the cut-off date is two months after the date of that report. Tell us about a search report sooner rather than later if that would allow it to be considered during our first examination.

---

**Use of E-mail:** Please note that e-mail should be used for correspondence only.

*Exceptions* You do not have to supply details of a search report that (1) shows a nil response, or (2) has been published by WIPO or EPO, or (3) you have already supplied to us on a previous GB application.

### **Publication**

I estimate that, provided you have met all the formal requirements, preparations for publication of your application will be completed soon after **20 January 2009**. At this time you will receive a letter confirming the exact date when the preparations for publication will be completed. This letter will also tell you the publication number and date of publication of your application. However, it should not be relied upon as a reminder if you are intending to withdraw your application before publication.

### **Withdrawal/amendment**

If you wish to withdraw your application to prevent publication you must withdraw it before the preparations for publication are complete. **WARNING** – after preparations for publication are complete it will NOT be possible to prevent publication.

If you wish to file amended claims for inclusion with the published application you must do so before the preparations for publication are completed. If you write to the Office less than 3 weeks before 20 January 2009 please mark your letter prominently:

**"URGENT - PUBLICATION IMMINENT".**

Yours faithfully

  
Dr Stephen Evans
